A note from your Economic Development Corporation . . .

The Quality of Life and Leadership Pillars were combined at a meeting in April. We met with Joe Bartman and Kristi Wagner to accomplish this because many of us felt we were doing the same thing.

We set some long term goals:

1. Provide a safe environment for the community.
2. Match the right people with the right project - use our tools.
3. Our community has three main groups and various needs at each level to be addressed as needed - young adults (20-35); mature adults (35-55) and senior adults (55+)
4. projects "on the burner" - bike trail, senior transport to appointments both in town and out-of-town, and more community education classes.

Two things accomplished were helping the out of school program get up and running and two adult computer classes were held with ten to 12 attending each.

Updates on the work that has been accomplished during the past year will be given following the meal at the annual meeting. This year also marks the start of the Faulkton Area Foundation. Information will be presented by Roger Deiter, Development Board member, Buddy Seiner, S.D. Community Foundation Community Savings Account Manager, and Troy Hadrick, Foundation Chairman. Please come join us for an interesting, informative, and innovative meeting!

Sincerely yours,

Joel Price

Development Chairman
